DES MOINES, Ia., Feb. 12.—(Special Telegram.)—A scare about the Des Moines water supply was started today when the water company made a formal demand water company made a formal demand on the city that it atop the flushing of sewers with the water from the mains on account of low supply. The water is drawn from beneath the Coon river, which is filled with ice and very little water is running. The extent of the drain by reason of taking an excessive supply for city purposes has caused fear that the water supply will become low enough to cause danger to health.
